## INTERESTS

Cycling / Travelling / Movies  
Television / Zombies / Habs  
Local Politics / Cats / Podcasts

## ABOUT ME

After an unlikely start in interactive media working in Washington DC for the US military, I spent the next 20 or so years editing mostly in television, developing a reputation for reliability, quality of work, and the ability to operate independently. I am often tasked with overseeing the pacing, musical style and packaging for new series and ensuring a consistency in look and feel when working on projects with multiple directors and editors.
